

Table of Languages

Cross Linguistic Study of the New Creation Story / Man on Day Three in Genesis

Five hundred and forty-five numbered studies across eleven documents, each read against the banner 7 Days to Perfection with the same three questions: what the language holds, what the tradition holds, and what happens at the fourteen seams.

Numbers 1 to 400 follow the ranking by native speakers. Numbers 401 to 474 are the indigenous and island languages that ranking could not reach. Numbers 475 to 545 are the signed, ancient, revived and smallest languages gathered under the title In Ancient Days, Even Small Beginnings.

Hebrew opens the first document without a number, because that is where the writing happened. Its ranked place among the others is 102.

A few numbers point to the same speech community under two names, and are marked where they occur. They are kept so the numbering matches the documents.

Languages 1 to 21
